

**The International *Schlumbergera* and *Rhipsalidopsis* List
Registration Form (Version 2025.1)**

International Registrations of <i>Schlumbergera</i> and <i>Rhipsalidopsis</i> Cultivars					
(Please see first the important informations and explanations at the end of this form)					
The Cultivar is a					
<i>Schlumbergera:</i>			<i>Rhipsalidopsis:</i>		
Name of Cultivar					
Registrant					
	Name:				
	Street Address:				
	City:				
	Province/State/Territory:				
	Country:				
	Postal/Zip Code:				
	E-Mail:				
Additional Information					
	Hybridizer:				
	Hybridizer country:				
	Hybridizer reference:				
	Name giver:				
	Year of naming:				
Plant growth habit					
	Upright:			Pendant:	
This cultivar is					
a seedling:			a sport:		
Parentage					
	Pod Parent:				
	Pollen Parent:				
Pollination Year					
Main Color of Flower					
White	Yellow	Red	Orange	Purple	Pink

Color Temperature Sensitive:					
Yes:			No:		
Flower Description					
		Zygomorphic:		Symmetrical:	
		Length:		Diameter:	
Petal Form					
		Elliptic:		Lanceolate:	Ovoid:
		Recurved:		Not Recurved:	
Main Color of Stamens					
White	Yellow	Red	Pink	Purple	
Main Color of Style					
White	Yellow	Red	Pink	Purple	
Fruit (ripe)					
Color:	White	Yellow	Red	Pink	Green
Ribbed:	Yes:			No:	
Additional Flower Description					
Phylloclades					
		Length:		Width:	
		Form crenate:		Form dentate:	
Additional Comments					
Availability					
Grower:					
Distributor:					
Number of Photos attached					

Please note the following important information:

1. New applications for registration must comply with the International Code of Nomenclature for Cultivated Plants (ICNCP) regulations. If not, they are rejected.
2. Only a completely and correctly filled out form can be processed.
3. There is no claim for inclusion in the list.

The application should be accompanied by at least **two photos** (preferably one close-up of the flower, one of the entire cultivar). The registrant allows the authors of The International *Schlumbergera* and *Rhipsalidopsis* List of Species and Cultivars to publish these photos in the context of the *Schlumbergera* list, in whatever form.

4. The applicant warrants that he is entitled to register the cultivar and that it is not a cultivar already known or already registered in the list.
5. If the registrant is not the hybridizer, he confirms to have the allowance of hybridizer to register the cultivar.
6. All sizes are in centimeters.
7. The cultivar should have bloomed for at least two consecutive bloom cycles **in two consecutive years** where the flower shape and color has been consistent. In general this is expected to take **one year after the first flowering** at a minimum but may take more years to complete
8. The registration in this registry does not imply the creation of Plant Breeder's Rights, or other rights to a name (principles 5 and 6 ICNCP).

Explanations:

1. **Flower size is measured as followed:**

2. **Hybridizer**

Hybridizer is the person who pollinated the plants. If this field is left blank, it is assumed the registrant is also the hybridizer.

3. **Grower**

Grower is the person who grew the plants from seeds. If this field is left blank, it is assumed the registrant is also the grower.

4. Distributor

The complete name of the distributor must be given. The distributor is the person or firm who brought the cultivar into commerce, or offered the plant to others for distribution. If this field is left blank, it is assumed the registrant is also the distributor.

5. Name giver

The name giver is the person who derived the cultivar name being registered. If this field is left blank, it is assumed the registrant is also the name giver.

6. Hybridizer's reference means a number or code of the hybridizer to identify the plant.

To register your new cultivar complete and mail or post the attached form to:

Vera Shekh
str. Câmpeni, bloc 75,
nr. 2, ap. 18
Medias, Sibiu, 551143
Romania
